Subject: FW: Texas Poison Center Network SITREP #3 (Town of West Fertilizer Explosion)

All,

Appears to be the last Situation Report (SITREP) from the North Texas Poison Center Network for the fertilizer plant explosion in West, Texas. Call volume have decreased since incidence.

As an FYI, ATSDR Region 6 has developed relationships with the Arkansas, Louisiana, Texas and Oklahoma Poison Centers. ATSDR is able to work with Poison Centers to set up Situation Reports and receive data daily. However, this plan has not been implemented in any other Regions. In Region 6, a guidance plan was developed to assist Poison Center better serve the public and EPA On-Scene Coordinators by providing key medical and clinical advice to address public health in a disasters or environmental emergency responses. I am attaching the guidance for your review.

Efforts should be made to expand this concept to include other states outside of Region 6.

CAPTAIN Patrick Young
U.S. Public Health Service
ATSDR Region 6
Division of Community Health Investigation
Region 6 - Co-located w/ EPA
1445 Ross Ave 6SF-T (8th Floor)
Dallas, TX 75202
214-665-8562

Subject: Texas Poison Center Network SITREP #3

Please see attached for the TPCN situation report for 4/22. To date, we have received 21 calls related to this explosion.

Of those:

- 12 were information calls
- 9 were exposure calls

These calls came from:

- 14 public calls (7 info, 7 exposures)
- 7 healthcare professional calls (5 info, 2 exposure)

No additional SITREPs will be sent out unless we get any additional calls.

Please let David Baker (Central Texas Poison Center Director) or I know if you have any questions.

Melody Gardner, RN, MSN, MHA, CCRN
